## The Friendly Coin Club of Chambersburg

CHAMBERSBURG, PENNSYLVANIA

## Cumberland Valley Coin Show, May 27

From left to right — Edgar C. Magill, Harry L. Cohn, Charles S. Fleck, club vice-president, John E. Duke club president and general chairman of the show, Clarence F. Pugh, club secretary and bourse chairman of the show; discuss show exhibits.

The Cumberland Valley Coin Show held May 27th at the Chambersburg Recreation Center was proclaimed a success by coin collectors, dealers, exhibitors, spectators, and the sponsor, The Friendly Coin Club of Chambersburg, Pa.

The main attraction of the show was the coin and currency collections of Edgar C. Magill, Duncansville, Pa. and Harry L. Cohn, Altoona, Pa. These two members of The Juniata Valley Coin Club exhibited collections never before seen in the Chambersburg area. The 1856 Flying Eagle cents were the most popular. Seven uncirculated specimen valued at \$1200. Type sets of gold, commemorative gold issues, a complete set of silver dollars from 1878 to 1935 including the scarce 1895 proof, a complete set of uncirculated Indian Head cents, all of the United States proof sets from 1936 to date, confederate, fractional and United States currency, and the almost impossible to obtain encased postage stamps, formed the nucleus of the collections formed by these prominate numismatists.

From a dealers standpoint many remarked about the congeniality and enthusiasm of the Chambersburg area collectors. All reported sales and trades were good.

Many people left the show happy after winning one of the prizes awarded by the Friendly Coin Club. The prizes and the winners were:

1909-S VDB Cent, Hugh Artz, Boonsboro, Md.; 1909-S Cent, Alfred Rispigliate, Mount Union, Pa.; 1931-S Cent, E. R. Loche, Chambersburg, Pa.; 1950-D Nickel, Romona Menns, Waynesboro, Pa.; 1955-PDS Dimes, L. R. Caldwell, Chambersburg, Pa.; 1961 Proof Sets, John Ripple, Shippensburg, Pa.; William Abiecht, Taneytown, Md., Ronald Coover, Shippensburg, Pa. Rodney Frank, Chambersburg, Pa., Wm. Hargaroad, Fayetteville, Pa., Mrs. L. Goldberg, Altoona, Pa., Robin Reese, Chambersburg, Pa. Elwood Gabler, Chambersburg, Pa. Dick Davis, Shippensburg, Pa. Charles Bietsch, Chambersburg, Pa., Dick Swisher, Chambersburg, Pa., John Covert, Orbisonia, Pa. Blain Schellhase, Chambersburg, Pa.

Estimated attendance at the show was 1,000 persons. Guests were present from Pennsylvania, Maryland, Virginia, West Virginia, New York, Illinois, Michigan and California.

Because of the success of this show, The Friendly Coin Club plans to make it an annual event, stated Clarence F. Pugh, Secretary.

## Handicapped Beauty Enjoys Hobby

Dear Sir:

You will find enclosed a snapshot of Darlene Calvert of 514 Wyandotte Ave., Akron, Ohio, surrounded by members of the Board of the Akron Ohio Coin Club. Darlene is the only Honorary member of the Club.

This beautiful blue-eyed blonde is 24 years old, and is our nominee as the most handicapped Coin Collector in the country. In 1953 she was struck by Bulbar Polio. After a year in the hospital in Iron Lungs under the care of the March of Dimes, she was returned home. Her legs are withered and useless. During the day she sits in a chair hooked up to a mobile breathing device. To sort her coins, she has lightweight steel braces affixed to her arms. At night she sleeps in a special bed that does her breathing for her.

The members of the Akron Coin Club have given Darlene many old coins. Folks from around the country who have heard of the beautiful courageous girl have sent her others.

Darlene always writes a "thank you" note to every one sending her coins. The writing is not too neat, as each movement takes quite a while.

The Akron Coin Club is very proud of Darlene, and seconds her thanks to the wonderful Numismatists who have sent her coins.

Wade De Vore, Sec'ty. Akron Ohio Coin Club

## SMUGGLING GOLD TO INDIA THRIVING VIENNA BUSINESS

VIENNA, June 10 — Smuggling of gold is a flourishing business here.

Though most of Austria's gold is designated for coinage, much brick gold gets into possession of jewelers and traveling diplomats. The bars are melted and poured into all sizes and shapes, from shavings to automobile replacement parts. The latter are painted black, fitted into cars

and then driven across the border.

Chief destination for smuggled gold is India where most people do not believe in banks and invest what little they have in gold.

Since stored gold is of no use to the economy, the Indian government discourages hoarding by offering to buy gold at twice the world price, or roughly \$70 an ounce.

The most popular smuggling route is from Austria to the north Italian port of Genoa, where most ships bound for the Far East visit. From Genoa, the route leads to Bombay.

Several requests for information on the mint error nickel bar over 0 have been received. This is caused by a break in the die. It's future will be determined by the collectors demand.

The Guide Book of Great Britain Modern Coins by H. C. Taylor and Somer James is now available. This colorful cover with British coins is a first edition with many items of interest. It contains a conversion table and price values from a farthing to gold. A well illustrated book no doubt an asset to the foreign collector and market.

7 Unc. Copper 1943 Cents—A Mr. Marras of N. Y. writes he had 7 of these but they were stolen by a young girl. He had them in storage in San Francisco for nine years. This theft was reported to the police. 1 unc. 1943 copper is unknown to the hobby no less to hear 7. Any information should be sent to the editor of this magazine.

Steel Copper Shell Case here is another first, several years ago a dealer showed me two of them and was told it was top secret. It seems the mint had intentions of issuing these to conserve the vital copper during the war shortage, but then abandon it. Several pieces as trial were struck. Since then I have heard of two others plus a letter from McGimsey of Oregon state they had one and want to know if such could exist. From what I gathered I am inclined to go along that they exist, but they would be a difficult item to verify. They are not plated but shell cased copper, thus would attract to a magnet.

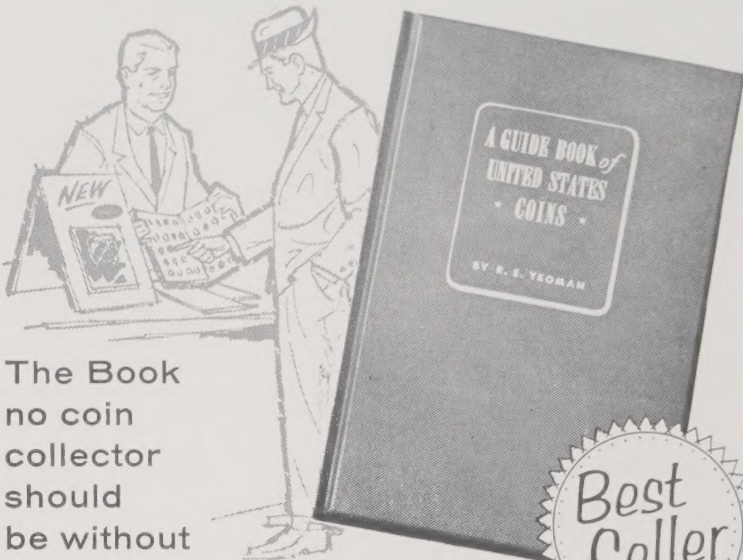

Paper Profits Can't Be Deposited having heard this joke several times I thought I'd pass it on to you. It could refer to our present coin trends. A broker called up his client and said a certain stock was going to climb and was available at \$1.00. Buy me 1,000 shares the client replied. A few days later the broker called again the stock hit \$3. and going up, buy me another 1,000 was the reply. A week later the broker called again it's up to \$6. a share, the customer replied "Sell Them", asked the broker, "To Whom?"

RARE COIN SURVEY

Several months ago one of our readers suggested a Rare Coin  
Survey to find out approximately how many rare coins are actually  
known and available by the collector and dealers. We mentioned  
this in a previous issue and asked our readers if they would like  
such a survey. The response received warranted an attempted ef-  
fort. The following survey report is the result of the letters sent in.  
We request our readers and anyone else in numismatics to send  
your list of rare coins available. Your name and address will be  
held in the strictest of confidence and later destroyed. This survey  
is meant only as a guide, its material reference may be beneficial in  
the art of numismatics. We need your letters, comments and sup-  
port to help make this survey and future surveys as accurate as  
possible.

New listings and additions will be made on popular request and  
as we go along.

Reference to Mint Reports: Actual amounts struck by the  
mints does not determine the rarity of coins. The quantities of  
coins reported has no reference to actual numbers in circulation. In  
some instances almost the whole issue could have been melted down.

Our electronic separator machine (our own invention) separates, counts and wraps coins in the categories listed above, rejecting mutilated coins only. Positively no other coins removed. Separation is made by speeds up to 50 times faster than manual. For example: If you ordered Pkg. No. 940S our machine will separate all coins dated 1909 to 1940 with mint marks "S", set aside, count and wrap them. Written testimonials prove that valuable key coins are continuously found in our packages. A trial will convince you.

CANADIAN DOLLAR DOWN  
ON A FEDERAL DEFICIT

The Canadian dollar continued its decline in foreign exchange dealings Friday when finance minister Donald Fleming reported a federal deficit of \$345,500,000 for the fiscal year ended March 31.

The Canadian dollar fell 13-32 of a cent.

At the close it was quoted at par of 100 in United States funds, the lowest since Nov. 25, 1955, when it was 99.954.

Dear Frank:

As you well know I have been regarded as "The Sceptic-Sceptic". I was certain all of the key coins & other rare specie were beyond my reach, until recently when I found a 42/41 dime.

Ironically enough I secured this in change from the purchase of a pack of cigarettes.

So I gladly relinquish the above title to another "Thomas" & suggest you "tell 'em" in the C.P.M. to keep looking.

Regards,

—Yern Jorgenson

## The First Gold Coin of Israel

Here, after 2000 years of coinage history, is the first true gold coin of Israel—an official Government. The coin is a 20 Pound gold piece dated 1960, and it was struck to commemorate the centennial of Theodore Herzl, their national hero and founding father.

Only 10,000 pieces were struck, of which 2,000 were reserved for use in Israel. The remaining 8,000 are for the rest of the world—a figure hardly enough to meet the world-wide demand for this extraordinary gold piece. Get this truly rare and important coin while they are available.

# "Loose Coin Talk"

By NICHOLAS SALIMBENE

A little while back I wrote to Mr. Elmer R. Kirk, collector, dealer, author and proprietor of the "Freak Coin House" of Buffalo, Missouri. In answer to my letter, inquiring about a "double-tail-cent" which I had in my possession, Mr. Kirk sent the following answer, which with his permission, follows: "When a coin fails to eject from the dies and another blank is struck between, the result is an incused or incised (sunk) impression. Also, one struck coin may become caught between two others with the same intaglio result. The design and lettering on these impressed coins is always in reverse, opposite or backward in relation to a regular struck coin. There are, of course, many fakes in any line of endeavor and so it goes with coin collecting. Man-made altered dates and re-engraved coins such as fake 1913 Liberty head nickels, 1856 flying eagle cents, acid-shrunk and mechanically expanded coins along with just plain counterfeits are apt to creep, unaware, into any regular coin collection, unless one is very careful. And, so it goes with intaglio (freak) coins. These errors can be and sometimes are duplicated outside the mint. This is usually done by inserting a blank between two struck coins, encasing all three in leather and then struck hard with a heavy hammer — or by squeezing them in a hydraulic vice. But, be not dismayed because when anything is imitated, the genuine becomes more valuable. Therefore, authentic intaglio coins make a very valuable addition to any collection and if, per chance, you happen to find one in a mint-sealed bag, you can swear by all the Gods that you have a genuine intaglio mint error."

In foggy London, England, a motorist was driving home from a trip. He could not see more than a few feet due to the fog. Deciding to play it safe, he followed the red tail light of a car ahead. Without any warning, the car in front stopped short and the careful motorist smashed into the rear end. "Why didn't you signal you were going to stop?" Shouted the angry motorist. "What?" said the front driver, "IN MY OWN GARAGE?"

In answer to Mr. M. E. Mennis, of Toronto, South Dakota, you can obtain a Canadian Proof like set in any easy and enjoyable way. By joining the "COTY CLUB" of Canada and paying their fee, you will receive Proof Like Set every year automatically. Write to the CANADIAN "COTY" CLUB, BOX 68, PUNNICHY, SASK., CANADA. I invite all of my readers to do likewise. . . . Do me a favor in the meantime, mention that you heard of the club in this column, and/or the "COIN PRESS". . . . To Mr. Alex Palasti, of Newark, New Jersey, by all means hold on to them, what can you lose? Especially when you have paid only "face" . . . (Letter referred to "semi-double D's").

The day when the LAWS of a country can not protect a citizen, or just as well condemn a citizen . . . then that is the day a country has died . . . TO MEMBERS OF THE GARFIELD COIN CLUB: The day when the "BY-LAWS" of a club can not protect a member, or just as well condemn a member . . . then that is the day a club has died. . .

Mrs. Jean Gorski, of Orange, New Jersey sent in this little teaser. Can you, using only four nines, add them, subtract them, divide them or multiple them, come up with an even one hundred answer? ? ? REMEMBER, you can only use each nine once. I will give you the answer in my next article.

The number of inquiries which I have received in regards to the "Gardsall", of which I had mentioned in a past article, indicates that here would be a profitable enterprise for some ambitious individual.

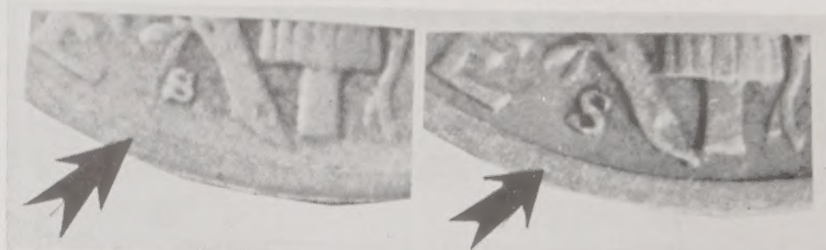

I have come across a 196• Lincoln cent. The number one of the last digit had filled to about three quarters of the way up and thus giving the impression of a 196 dot. Have any of you readers come upon any???? Let me know if you have. Could this possibly be another first for CPM????

When a business buys up another business in the same category, is to me not a show of success of the parent company, but rather a leading to a potential monopoly. Once this monopoly is achieved, there would be no one left to offer competition. I am referring to a not too long ago purchase of one coin journal by another. Can you imagine what you would have to pay per ad if there were only one coin journal in the hobby?? It would pay the advertiser in the long run if he would advertise in all the journals rather than just one . . . it would be cheap insurance to insure a stable price for the future. . .

Keep those letters coming in, I am sure you must have something which you would want others to know about. If your club changes officers, moves, has an up coming convention let me know and in turn I will let others know . . . send all of your letters to: Nicholas Salimbene, 67 Congress Street, Newark 5, New Jersey.

"Coin Tip" 1960 small P to catalogue at \$2.50, small D 15¢, 1960 Proof set \$20.00.

## 1945 MICROSCOPIC S MERCURY DIME

Microscopic S

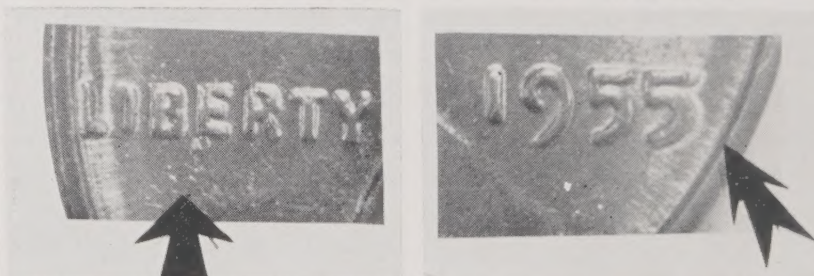

Regular S

The above Micro. S mint dime is a new listing in the Red Guide Book and will probably list at \$2.00 V.F.

There are a number of Micro. mint marks in most all series and denominations. Many have been reported, although they have been noticed many years ago. It is my opinion, it will be dropped from the next edition or continued along with several other new listings.

Obviously this matter wasn't given proper consideration.

## 1955 LAST 5 SHIFT AND DOT UNDER E

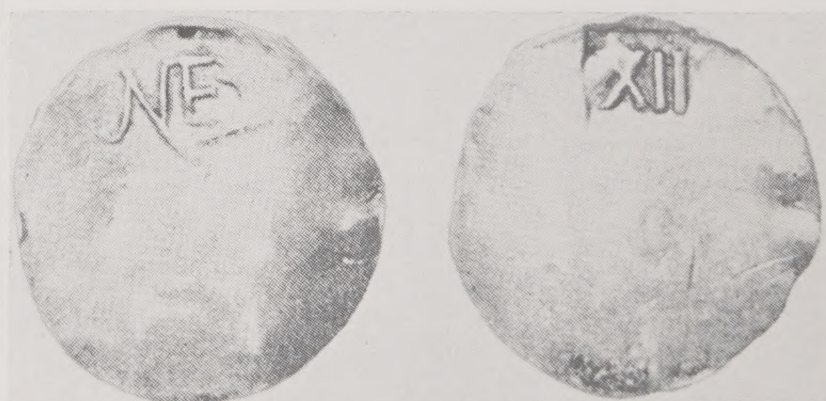

Note Dot Under E

Note Last 5 Shift

The above photos are enlarged, a 10 power glass is needed to clearly see these mint errors. As one dealer put it, "Canada has nothing on us we have a dot cent too."

Journal Square Coin & Supply Co. of 60 Sip Ave., Jersey City, N. J. supplied the above 2 error cents and offers them for sale at \$3.50 each.

## Saugus Was Site of Colonial Mint

Worcester Evening Gazette

By Ed J. Vaskas

The first mint operated in the American colonies was established in 1652 by the Massachusetts Bay Colony. It was situated in Saugus, eight miles north of Boston.

Silver bullion was obtained, principally from the West Indies, and the now rare and expensive plain New England shilling was made, illustrated above. Specimens cost several hundred dollars each at present.

Also manufactured were the fractional denominations of three and six pence pieces. These coins were generally called Boston or New England Money.

In order to overcome the exporting of these silver pieces, which was the fate of the English and Spanish coins brought to America by settlers and seamen, the Boston Mint made their pieces lighter than the two foreign types.

But the simplicity of the design invited counterfeiting and clipping and they were soon replaced by the "tree" coins, the Willow, Oak and Pine Tree Series.

The first mint on the North American continent was established by the Spaniards in 1535 in the City of Mexico.

# A Look At English Currency

By R. A. RADICE

England by far is one of the few countries that has currency which is beautiful to the eye. Looking at English currency one gets the feeling of the greatness that once was the English Empire. Although England no longer has an empire as great as it had in the past its currency is still beautiful to see. English currency design is one of finesse and artistic beauty.

Appearing on probably more coins than any other ship is Sir Francis Drake's "Golden Hind". It now appears on the English ½ pence and 3 pence. This ship is also often seen on currency of the territories that once were or are a part of the English Empire. The bird seen on the ill fated English Farthing is a native bird to England, the wren. It is one of the smallest birds in existence (3rd smallest) and probably accounts for its being on England's smallest coin. The wren contrary to popular belief is not a national emblem, but has a corner in popular affection. By the way the farthing has been withdrawn from circulation; the metal to be melted down. None of these coins will be sold to the public by the Royal Mint. The portrait of Queen Elizabeth II showing uncrowned head appears on all of England's and the Commonwealth's coins today. It was modelled by Mrs. Mary Gillick. Personal sittings were granted for this portrait.

Commemorative coins in England like those in the United States are not likely in the immediate future. If, however, decimalisation of England's coinage is decided upon, there is little doubt that sets will eventually be produced. I might add that these sets would be high in status in the numismatic world. The last commemorative coin issued in England was the crown in the Coronation Coins of 1953. Obverse, an equestrian portrait, was done by Mr. Gilbert Ledward. Reverse was designed by Edgar Fuller; modelled by Cecil Thomas.

The Royal Mint does not strike or sell specimen (proof) sets of coins except on certain occasions, such as Coronations or Jubilees of the Sovereign. Specimen sets were, however, struck and sold in the past. These sets were not struck annually but at varying years and are some of the most distinguished sets in numismatics. These sets first struck in 1887 were comprised of only the silver and gold coins of England: 3 pence—5 pounds. In 1902 the 1, 2 and 4 pence pieces were added to these sets. In 1927 the gold coins were omitted from the sets leaving the sets only with silver coins: 3 pence—5 shilling. The next year of issue 1935 the sets included the gold coins again. All specimen sets of that year were compiled of patterns except for the 5 shilling. In 1937 the nickel-brass and bronze coins were added to the sets but the gold coins were taken out again, this time to remain out: ¼ pence—5 shilling. The last year these specimen sets were issued was in 1953. It might be of interest to note that these sets have never exceeded 40,000 in number, that being in 1953. Other years the number rarely went above 20,000.

Maundy Money is a term for specially struck set of English silver coins that are distributed to certain poor persons on Maundy Thursday. The set consist of the 1, 2, 3, and 4 pence coins. The 3 pence being an irregular issue. Maundy Thursday is the day before Good Friday; this year it fell on the 30th of March. The ceremony itself is very ancient; there are references going back to 600 A.D., although probably not in connection with the King in the early days. The origin of the distribution of money at this ceremony is not clear but goes back at least to Queen Mary in 1556. Ultimately, of course, the origin was Christ's washing the feet of the Apostles. These sets it has been said tell of the prosperity of England. If this is true then England should have reached its peak in prosperity in 1952 when only 1064 sets were issued. This we know is quite untrue, it is quite interesting, however, to observe that when England was most prosperous, the Victorian era, the most sets were issued. Perhaps the rule should be, "When more Maundy sets are issued, England will be more prosperous!" Never have more than 22,000 sets been issued thereby making the Maundy sets popular with collectors. In the past the Maundy series has been occasionally issued as part of a specimen set (1902). Generally, however, this is not so.

The Royal Mint strikes coins for a number of Commonwealth and foreign countries but does not sell any of these coins to collectors. The Royal Mint also includes a Medal Factory, which produces almost all of the British Forces medals and a wide range of other semi-official and private medals for institutions, societies, etc.

The coinage of gold is undertaken from time to time, according to the nature of the orders received. The coinage of sovereigns, for example, depends on the requirements of the Bank of England. The last year of gold coinage to my knowledge was 1959 with over 1.3 million sovereigns being issued. One hundred and forty of which were dated 1958. In 1949, 1951 and 1952 all gold sovereigns were dated 1925, the preceeding year for coinage of gold sovereigns. This appears to be the only gold coin that will be continued, at least for awhile, by the Royal Mint.

## FUTURE COIN DEALER

Dear Sir:

I think your magazine is the best on the newsstand today. It has helped me a great deal with my collections.

I started coin collecting in May of last year; of which I have spent 10 months overseas. I have found a few rare U.S. coins over here, also many semi-rare coins. I have found a complete collection of Buffalo Nickels over here, except for 2 of the 1913 dates, and the 3 legged Buffalo. I have well over 3,000 coins in my collection. And am planning on opening my own coin shop when I get out of the service.

I have also found 2 1943 Lincoln steel pennies with the 4 missing.

## SHOCKING FINDS

I don't want my name published in The Coin Press, but if you wish to use this letter of "my shocking finds," you may. Here is what I have found in the past 7 weeks.

1—1909-S, V.D.B., V.F.-AU.

1—1955 Double Shift—E.F.

1—1922 PLAIN NO-D-Good-I in Liberty is not legible.

## VERTICAL DOUBLE D

Glancing through a few rolls of 1960-D Lincoln's for Double-D's I came across several with a vertical double-D-One strike appears as a trace with the real mint of normal dimensions. As yet I have not read of this variety. Enclosing one for your comments.

Also have a 1930-D Lincoln—the O barely distinguishable.

What is the future of the Double-D. Incidentally I found one in a batch I received around September of last year.

Also have 1956-D Jefferson with a Double-D.

Thank you—Enjoy your magazine very much.

—Capt. Darrell B. Kampschror  
Fort Campbell, Kentucky.

Editor's Note: I consider Double "D" an actual collectors item.

## FINDS 7 ROLLS 1960

### SMALL P DATES

Please find money order enclosed in the sum of \$3.00. Please renew my subscription to Coin Press for another year.

I like your magazine for all your very first hand coin news.

As to your Research Dept., if you had not come out with the change in the 1960 varieties, first it is VERY PROBABLE that no other coin service would have either, and the Lord only knows how long it could have gone unnoticed before being found.

When you first announced the wide date varieties in May 1960 I rechecked my coins and came up with 7 rolls of '60-P and 151 of '60-D, wide dates. Keep up the good work.

## CENTRAL OHIO COIN CLUB

Plan now to attend the big Central Ohio Coin Club Show on Sunday, August 13, 1961 at Buckeye Lake, Ohio in Park Terrace Sky Room, 9:00 A.M. to 6:00 P.M. Planning fifty bourse tables and table reservation is \$7.50. There will be parking for 500 cars. Added attractions, coin auction and door prizes, admission is free.

Free help to dealers in carrying material from car to tables if needed. Bring your table lights and coin cases if you wish.

This event planned with the entire family in mind. Buckeye Lake Park offers free picnic facilities, modern restaurants, swimming, skating, boating, kiddie-land and 30 big rides.

Send your reservation today.

American Medalists, 3014-31st Ave. South, Minneapolis 6, Minn., has announced that they will be offering tokens and medals for collectors.

The company will sell only by mail, primarily in the so-called half dollar field. In a sense, American Medalists will be the "retail" outlet for tokens and medals produced by Wendell-Northwestern, Inc., although possibly other minting concerns may be represented at a later date.

Because Wendell-Northwestern, Inc., can only accept orders for quantity production of medals and tokens, it is expected that American Medalists will fill a long needed gap to service the collector field in handling orders of just one or a few pieces of a specific issue.

The company will be advertising various specific issues that are available from time to time, and also expects to be able to fill requests for certain tokens that may be needed to round out collections.

## THE FIRST ANNIVERSARY

PARTY of the Union County Coin Club was a great success. The meeting began at eight o'clock as usual and after all the business was taken care of the party began. There was plenty of food for everyone and all the members did their share in getting rid of it. When all had their fill the customary auction was held.

Mr. Frank Spadone of the Coin Press Magazine had his 1943 copper penny on display and this was a real treat as one may never see one of these in his whole lifetime. The last time the club had anything like this happen was when Mr. Spada had three 1909-S vdb pennies here. Not often do you see three under one roof.

The club again wishes to extend an invitation to anyone who wants to join to come to the next meeting at The Polish National Home, 300 Roselle Street, Linden, New Jersey on the fourth Tuesday of every month at eight o'clock.

# FORT SUMTER -- APPOMATTOX CIVIL WAR CENTENNIAL MEDAL

The first of a series of two medals being struck to commemorate the conflict.

## SO-CALLED DOLLAR SIZE

**Obverse:** In the center are portrayed the busts of two of the most famous generals of the Civil War; Grant on the left, and Lee on the right. They are shown facing each other, in their uniforms, exemplary of all the armed forces, both north and south. **Designed by:** Mr. Robert A. Johnson, Mtn. Grove, Mo.

**Struck by:** The Robbins Company, Attleboro, Mass.

Issue limited to 1,000 Sterling pieces and 50 10K Rose Gold pieces, and an unlimited issue of Oxidized Copper pieces.

Issued and distributed by

CLIFFORD MISHLER, BOX 187, VANDALIA, MICHIGAN

**Reverse:** An explanation of the rather unorthodox lettering arrangement is due here. To the left is Fort Sumter, or the beginning of the war, and on the right is Appomattox, or the cessation of hostilities. In the center a mounted soldier is portrayed with his sword (or energies) pointing to this cessation, during the intervening four years, when his life could get back to normal.

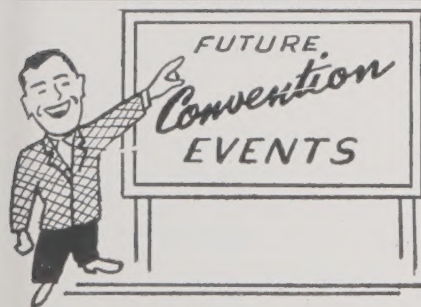

## GATLING GUN CENTENNIAL COMMEMORATIVE A NEW MEDAL BY WAHL

Commemorating the 100th anniversary of the invention of the famed Gatling Gun, Wahl Arms Company, of Bogota, N. J., recently issued the beautiful medal illustrated here. 60mm (2-3/8") in diameter, it bears a handsome portrait of the inventor on the obverse and an accurately detailed Gatling Gun on the reverse, both magnificently sculptured in high relief.

Invented in 1861 by Dr. Richard Jordan Gatling, a physician, the Gatling Gun was the first successful machine gun. Following its baptism of fire during the American Civil War, the Gatling was adopted by most of the world's armies and navies and saw action in nearly every conflict of the next forty years. Today - a century after its invention - modernized versions of the Gatling, capable of firing upward of 6,000 shots per minute, arm the U.S. Air Force's most advanced jet fighters and bombers.

The Gatling Gun Centennial Commemorative Medal is now available in bronze. It comes in an attractive, gold-imprinted, black plastic case. In September, there will be a special issue of the Gatling medal in pure silver (.999) limited to 2,500 serially-numbered pieces. Orders for silver medals are being taken now; it is expected that this small issue will be sold out in advance.

**THE OFFICIAL MEDAL**  
**OF THE**  
**CIVIL WAR CENTENNIAL**  
**1861 - 1961**

The Coin and Currency Institute, Inc., of New York and California has been appointed sole national distributor of this medal, which commemorates officially the centennial of the Civil War.

It will be available in both bronze and silver about May 31, 1961.

The medal which is 2½" in size, is being issued under authority of the Civil War Centennial Commission, which was created by Act of Congress. The medal will be struck by the Medallic Art Company from designs and sculptor's models that have been approved by the U.S. Government Fine Arts Commission in Washington, D.C.

As can be seen from the above illustration, the obverse bears the portraits of General Ulysses S. Grant and General Robert E. Lee. The reverse shows the seal of the Civil War Centennial Commission, having as its main theme, a Union and Confederate soldier. The medal will be sold in its own specially made container and will come with a printed, informative leaflet.

In addition to the bronze medal, there will be an issue of pure silver medals, which will be limited to 25,000 serially numbered pieces. The purity of the silver will be greater than .999.

The official prices of the Civil War Centennial Medal are as follows:

The Bronze medal	\$ 4.00
The pure silver medal	30.00

(Please note: Because of the limited issue the silver medals are offered subject to being sold out. Those wishing a silver medal should place their order now. Earlier this year many thousands were disappointed when their orders for silver Inaugural medals were placed too late. Because of the overwhelming national interest in the Civil War, it is expected that the silver medals will be quickly sold out.)

The bronze and silver medals will be available about May 31, 1961 at your local coin and stamp dealer, department store coin counters, hobby shops etc., or you may write to either our New York or California office.

Established dealers wishing to carry this medal for resale should write to us at once for our terms.
